[Associated Press by Federal Wireless] SAN FRANCISCO, Aug. 15,-Walter G. Smith, formerly of Honolulu, is critically ill in a hospital at San Mateo, suffering from a stroke of apoplexy. He came to California recently from his home in Sherbourne, N. Y., and suffered a collapse on the

[Associated Press by Federal Wireless] SAN FRANCISCO, Aug. 16 .- The cruisers South Dakota and West Virginia sailed yesterday for Honolulu,

HOW TO SAVE YOUR EYES

Try This Free Prescription Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily disare neglected more than any other nish your day's work you sit down and rest your muscles, but how about were interested in butter and eggs. your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription, which has benefited the eyes of so many, may work equal wenders for you. Use it a short time. Would you like your eye troubles to quickly. disappear as if by magic? Try this prescription. Go to the nearest wide-awake drug store and get a bottle of Optona tablets; fill a two-ounce bottle with warm water, drop in one tab-let and allow it to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of Senator Charles A. Rice's campaign cases. Now that you have been warn-

likely to thank us as long as you live

Five Thousand Tourists a Week

AND THEIR CASH VALUE TO HONOLUMU.

A Series of Ad Club Talks for Honolulu

NO. 1. FOR THE BUTTER AND EGG MAN.

That'd be about right, for the present, wouldn't it? Five thousand tourists a week! That many coming in every seven Staying seven days. SPENDING MONEY SEVEN DAYS. Just lay the idea down on the table. Cut it up into Business. Your

business. Mine, and the other fellow's. And see what it means. Not what it means to the hotel man only. Or the Inter-Island steamship man. Or the taxi man. But to you, the Merchant. To you, the Banker. Yes, and to you, the gas man and the electric man, and the street railway man. And even to the clerk and the working man.

Five thousand tourists a week 'd eat pretty close to 1700 pounds of butter. That much, at the very least. And over 1,600 dozen eggs! Get the figures? See yourself as a merchant selling that much butter and that many eggs to the hotels and the lodging houses and putting the profit in your linen trousers? See yourself as an importer, bringing that much in by steamers and appropriating the margin between the import price and the jobbing price? See yourself as a clerk, keeping the books for that amount of traffic. Or as a salesman, putting the butter

Did the tourist proposition ever strike you that way? If it did, you'd be waiting with your hand in the till, wouldn't you, when something's doing in the way of boosting tourist travel? You'd even be willing to cast a vote for an additional territorial appropriation in case that sort of thing should come up in the legislature.

and eggs out over the counter, or a drayman hauling them to and fro?

As a matter of fact, that seventeen hundred pounds of butter and that sixteen hundred dozen eggs doesn't begin to tell the story. Even the story of butter and eggs. For they're only the figures of the average consumption per capita in the United States. The average, including the poor as well as the rich. And the tourist is usually rich, isn't he? Or, at any rate, not poor. Where the average person consumes only about a third of a pound of butter a week, the tourist class comes nearer to using two-thirds. Uses, indeed, if there happen to be five thousand of him, 3,400 pounds of butter and 3,200 dozen eggs. And that, sir, would be your figure—THE SLICE OF BUSI-NESS that you'd cut off of the 5,000-tourists-a-week idea.

Do you cut it off?

What is said to be the largest wire less transmitting station in the world recently was completed near Carnar-von, Wales.

A flatiron for travelers which takes up but little room is hollow and can be filled with alcohol for heating it
